

POINT **A** *to* POINT **B**

Painting with Wheels

Supplies:

- Paper
- Toy cars
- Paint trays
- Finger paint
- Construction paper

Instructions:

Ask your child to roll the cars on the paper to practice. Remind them that for this activity they are only rolling the cars on the paper! Have your child dip their car in the paint, then drive on the paper for a magical, messy project!

To clean the cars quickly, put warm soapy water in a plastic bin or water table. Add sponges, toothbrushes, or mesh loofahs! When your child is finished painting, invite them to clean their cars in the “car wash.”
